adaptation  
charter

# The Network

- (Central) KZN CC Compact
  - Extend to include other willing KZN municipalities
  - Actively include DAC partners in future activities
    - SALGA
    - DEA
    - DCOG
    - ICLEI
  - Utilise MILE
  - Include eThekweni Energy Office
  - This will extend the range of support available

dac

# Climate Knowledge Network

- DAC + partners, Energy Office, MILE to explore what resources / institutions are available
- MILE to host meeting CKZNCCC and KZN research institutions to explore opportunities

# Technical Support

- Support on how to develop CC Plans and Strategies
  - SALGA & DEA
- Support on improved funding proposals
  - ?
- How to facilitate exchanges around specific technical things, e.g.
  - EThekwini SLR
  - EThekwini Flood Line Policy
  - Ecosystem-based Adaptation
  - Other?

dac

# Taking the Learning 'Home'

- Identified other municipal decision makers that would benefit from Climate Change capacity building
  - Political leadership
  - Other line functions
  - Amakhosi
- DAC and Energy Office to explore setting up a MILE Master Class (targeting political and other high level decision makers)
- Exposure for other line functions and municipal stakeholders through Let's Respond Toolkit training at local level
- Potential through stewardship programmes and other existing initiatives involving Amakhosi
