| Energy and the natural environment | | Good governance | <input type="checkbox"/> | | |

Other:

6. What was the PURPOSE OF THE EVENT, THE BROAD OBJECTIVES, AND THEMES? Why was it of importance?

It was to get the feedback of the work that has been done by the cities which are part of the FRACTAL (Future Resilience For African Cities and Land). To learn from their challenges and experiences and to decide a way forward for the programme.

7. What in your opinion are some of the KEY LEARNINGS that you came away with? In other words, what stood out for you? Were there any "aha!" learning moments that you can share with colleagues? What were some of the KEY OBSERVATIONS that were important or different?

1. System's Thinking Approach, which looks into how can cities use climate change data in their planning and what is climate sensitive decisions. 2. Capacity Diagnosis & Development (CADD) tool; this tools allow cities to self measure their commitments in including climate change information into thier decision making.

8. As a result of this event, what is the ONE CHANGE that you may consider making backing back at work, if any? What follow ups are envisaged?

9. Please indicate details of useful CONTACTS AND NETWORKS that were established during the event?

All FRACTAL team, there will be an ongoing contact to learn what each city is doing and how Durban can learn from them and vice versa. Early next year Zambian delegates will be visiting Durban to share the knowledge and experience; already Durban has hosted delegates from Mozambique (Nacala city) for knowledge exchange.
