

2nd Exercise

Competences and SDG alignment

Global Goals and Local Competences

Selected Project:

SDG	Target	LRG competences and relevant policies	Departments in charge	Competences and relevant policies of other government levels	Local stakeholders concerned	Challenges & Opportunities

Global Goals and Local Competences

Selected Project: *Project for local economic development in a city*

SDG	Target	LRG competences and relevant policies	Departments in charge	Competences and relevant policies of other government levels	Local stakeholders concerned	Challenges & Opportunities
	1.1 By 2030, eradicate extreme poverty for all people everywhere, currently measured as people living on less than \$1.25 a day	Municipal services and service provider Local Business Agency	Department for economic affairs and labour	National Government	Local Business and Enterprises	

Wrap Up

- The vast majority of the 169 targets are directly linked to LRGs' competences. Looking at the given examples, do you think that we are talking about exclusive competences or shared competences?
- Do you think that meeting the goals requires strong cooperation between the LRG's departments? How can we foster this collaboration? Do you know of any mechanism in your organization that promotes joint work amongst different departments?
- According to the target, list the different levels of government which have (shared) competences on the issue and explain which mechanisms have been set up in your country to guarantee coordination and complementarity between these different levels of government.
- How can you engage local stakeholders in the process? Which local stakeholders would you involve?
- What challenges might a LRG encounter when doing this exercise (i.e. lack of financial resources to engage local stakeholders, blurry distribution of competences...)?
