Cooperation Projects are a Bottom Up Approach to the Localizing of the SDG's at a Grassroots Levels

❖ Working in your groups use the attached diagram on the “Bottom-up Approach” to assist with your arguments on the benefits that cooperation projects have had in effortlessly assisting with the localization of the SDG's by:-

1. Either making references to the examples that were given in the earlier session on the Local Examples from the African Municipalities on the Localization of the SDG's (13:00 – 13:45), or
2. Provide your own examples to share how cooperation projects have effortlessly assisted with the localization of the SDG's
